PREFACE

This report is one in a series on Soviet Ground Force and Logistic installations being prepared for a DIA/CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center 1P1c (DIA). The photographic analysis for this particular report was performed by the CIA Photographic Intelligence Division.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (J) equipment storage/maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank/assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training areas or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

SUMMARY

An ammunition storage area is located (Figure 1) 16 kilometers (km) northwest of Perm (58-01N 056-18E). The installation is rail served by a single spur from the Perm-Krasnokamsk rail line and has all-weather road connection to Perm.

The installation (Figures 2 and 3) covers approximately 750 acres and contains one ad-

ministration building, five barracks, 78 ammunition storage buildings, and 26 support buildings. The storage area is double secured.

No changes were noted in the installation

The installation was covered by KEYHOLE missions

DESCRIPTION OF INSTALLATION

Railroad Service

A single rail spur from the Perm-Krasnokamsk rail line serves the installation. A 400-foot trackside dock (A) is located on the spur inside the installation.

Road Service

An all-weather road provides access to Perm.

Administrative and Troop Housing Area

Area D contains one administration building, five barracks, and 19 support buildings. Track

activity in this area indicates a high level of usage.

Ammunition Storage Area

Area F contains seventy-six 125- by 150-foot apparently active buildings, two 210- by 190-foot buildings used to store materials awaiting shipment, and seven possible guard towers.
